Survey: Stormwater Discharges from Developed Sites Owner/Developer Short Questionnaire

Each file includes a SurveyID column, which is a unique code for each survey respondent. The heading for each column in the CSV file identifies the question number and the field completed. Each survey question gave the respondent the option to claim that their answer was confidential business information (CBI). For each survey question there is a field in the CSV file that indicates whether or not the respondent claimed CBI. When this was claimed by the respondent the answer has been replaced by term "CBI" in the CSV file. The data in the CSV file is in the same order as found in the questionnaire (note that confidential business information (CBI) and personally identifying information, such as names, street addresses, phone numbers, and email addresses, have been removed). For most questions identifying the corresponding data entries is straightforward. However, for a subset of questions where this may not be the case the key below can be used to identify the answers in the database.

From the Questionnaire:

**A-4. During calendar years 2005 – 2009, indicate if your business engaged in any of the following activities.
If Yes, check all that apply.**

<u>Database Fields</u>	<u>Survey Response</u>

D-1. Complete the table below with information on projects your business participated in that resulted in more than 5,000 square feet of impervious surface, and that were completed between January 1 and December 31 for the year identified below. (this is a randomly generated 12 month period between January 1, 2005 and December 31, 2009 expressed in terms of months not days) . If your business participated in more than 5 projects completed during this period, only provide information on the first 5 projects completed.

(This is a randomly generated year that is only visible after your Survey ID has been entered in Section A. If the symbol "#N/A" appears, you have not entered your Survey ID in Section A or you have entered your Survey ID incorrectly.)

In the event that your business was not responsible for the entire project, provide answers for the phase/portions for which your business was directly involved and for project questions for which you know the answer.
